

THE LAWYER HOT 100 2009

Penny Gilbert,
Powell Gilbert

Since setting up her new patent litigation firm Powell Gilbert with former Bristows colleagues in 2007, Gilbert has been winning clients on cutting-edge cases that would be the envy of any firm, large or small.

Gilbert was part of legal history in the High Courts this year, winning a mandate to act for life sciences client Human Genome Sciences in the UK's first-ever human genome patent dispute.
